I lubrificanti per motore come tutti gli altri oli da competizione MOTECX sono specificatamente formulati con basi selette per un impiego in condizioni estreme, concepiti per gli sport motoristici.

Tutti i lubrificanti della linea COMPETITION garantiscono:

Performance: riduzione degli attriti interni di motore e cambio e maggior potenza.

Protezione meccanica: mantenimento di una pellicola d'olio permanente.

Dissipazione del calore: miglior raffreddamento del motore.

Engine lubricants like all other MOTECX Racing oils are specifically formulated with selected base for extreme use, designed for motor sports.

All line lubricants COMPETITION guarantee:

Performance: Reduction of engine internal friction and gear change and greater power.

Mechanical protection: Maintaining a permanent oil film.

Heat Dissipation: Best Cooling Engine.
